In addition, you have to submit your plan to study in a mathematics-related field along with your application. It should be no more than 400 words. Finally, all applicants for this scholarship need to provide two letters of recommendation instead of one. For more information, please come and see me. Thank you.

M: I know the play is important, but you need enough sleep.

W: Dad, I don't want to make a mistake in front of people.

M: I understand. But to memorize better, you need to sleep at least 7 hours.
Getting enough sleep helps strengthen your memory.

W: Really? How can sleep strengthen my memory?

W: I agree. What was the most interesting part?

M: It was his claim that when students are praised only for the outcome, they don't care how they achieve it.

W: Right. They might do anything for good results.

M: Do you remember the students in the video clip?

W: You mean the students who tried to cheat on the test?

M: Yes, I was shocked they did that just to get good results.

W: Me, too. That's because praise wasn't used in the right way.

Last year on a Saturday afternoon, she missed her flight because she arrived at the airport 30 minutes late due to a traffic jam. She thinks it could happen again if they don't hurry. So, she wants to tell Ben that they have to go to the airport right away. In this situation, what would Lucy most likely say to Ben?

[16~17] 다음을 듣고, 물음에 답하십시오.

M: Welcome to Taringa Zoo. I'm Derrick Lewis, your tour guide for today. As you know, many mothers devote themselves to raising children. It's the same in the animal kingdom. However, some animal fathers also commit themselves to parenting. They put enormous effort into helping their young to survive. One example is the emperor penguin. After the mother penguin lays her egg and leaves to hunt, the father keeps the egg warm, eating nothing. Another dedicated father is the seahorse. The mother seahorse places her eggs in a pouch on the father's belly, and then the father carries the eggs until they emerge as little seahorses. The giant water bug is also a wonderful example. The father giant water bug carries eggs on his back until hatching time. Finally, after the mother sea catfish lays her eggs, the father picks them up in his mouth. The father sea catfish then keeps the eggs there until they hatch. He doesn't eat during this entire period. Now, let's go meet these amazing animal fathers in person.
